

I believe that K-Love is an absolutley amazing radio station that gives young believers a great source of contemporary christian music. There is no other radio station like it where I live and I love listening to it, both online and in my car. It's a true blessing to me and my family. If K-Love was to be replaced by some other radio station there would not be a radio station that appeals to me both as a young person and a believer in Christ. Thank you for your time.
